RANJIT KUMAR JAISWAL

Frontend Engineer & Software Testing / QA Specialist

Phone: +91 7004060528 | Email: ranjitjaiswal321@gmail.com | GitHub: github.com/ranjitjaiswal321 | India

PROFESSIONAL SUMMARY

Results-driven Frontend Engineer and Software Quality Assurance Specialist with 3+ years of experience designing high-performance, accessible React user interfaces and architecting comprehensive automated test suites (Cypress, Playwright, Selenium, Jest, Postman). Proficient in C++, Python, JavaScript, and modern CI/CD test automation pipelines to deliver zero-defect software.

TECHNICAL SKILLS

Languages & Core: C++, Python, JavaScript (ES6+), TypeScript, HTML5, CSS3, Data Structures & OOP

Frontend Frameworks: React.js, Next.js, Redux Toolkit, Tailwind CSS, Framer Motion, Three.js / WebGL

QA & Test Automation: Cypress, Playwright, Selenium WebDriver, Jest, PyTest, REST API Testing (Postman)

Methodologies & Tools: Git & GitHub, Jira, TestRail, CI/CD GitHub Actions, Agile / Scrum, SDLC & STLC

WORK EXPERIENCE

InnovateTech Solutions — India (Remote) | 2023 - Present

Frontend Engineer & QA Automation Lead

- Architected responsive, high-traffic client portals in React.js & Tailwind CSS with 99%+ cross-device accessibility.
- Built end-to-end automated test suites with Cypress and Playwright, reducing regression test cycles by 65%.
- Integrated GitHub Actions CI/CD pipelines to trigger automated unit, integration, and smoke tests on every pull request.
- Collaborated across engineering and product teams to triage defects in Jira and ensure 99.8% production test pass rate.

Apex Digital Systems — India | 2021 - 2023

Frontend Developer & Software Tester

- Engineered modular, interactive UI components using React, JavaScript (ES6+), and CSS3.
- Executed functional, exploratory, and regression testing with 300+ detailed test cases documented in TestRail.
- Validated 45+ backend REST APIs with Postman, automated assertion scripts, and Newman CLI integration.

KEY PROJECTS

OmniStore // Modern React E-Commerce + Automated E2E Suite (React, Tailwind, Redux, Cypress, Jest)
Built responsive full-featured store UI backed by complete Cypress E2E regression tests for checkout, cart, and authentication.

QualityOps // Real-Time QA Metrics & Bug Triage Dashboard (React, TypeScript, Playwright, Postman)
Engineered central telemetry dashboard visualizing automated CI test pass rates, API latency, and defect triage status.

Spectra 3D // Interactive WebGL Product Experience (Three.js, React Three Fiber, WebGL)
Interactive 3D product showcase with dynamic shader lighting, 60 FPS performance, and cross-browser responsiveness.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering | 2019 - 2023
State Technological University — Graduated with First Class Honors

CERTIFICATIONS

- Meta Certified Frontend Developer (React, JavaScript & Advanced UI) — Coursera / Meta
- Automated Software Testing & QA Mastery (Selenium WebDriver, Cypress) — Test Automation University
- API Test Automation Student Expert — Postman Academy
- C++ & Object-Oriented Software Design — Coding Ninjas
